CONTENTS OF VOL. 51.

Nos. 1 & 2., October 31, 1949.

PAGE

Okada, Y. The Examination of Tubercle Bacilli in Sputum. II. A Concentration Method of Tubercle Bacilli in Sputum.... 1

Sato, A., Sakai, K. and **Hayashi, K.** Close Relation between Prothrombin Time and Thiamin; Contribution to the Study of Normal Prothrombin Time. Preliminary Report. 8

Kumagai, K. Über die Tuberkuloseinfektion und die Allergie im Säuglings- und Kindesalter. 9

Sasao, S. Wirkungen der verschiedenen Vitamine auf den Glykogenbestand der Leber unter besonders warmer Bedingung. 17

Sato, A. and **Yoshiike, T.** Studies on the Detoxicating Hormone of the Liver (Yakriton). 103rd Report. A Working Hypothesis Concerning the Effect of Yakriton. 23

Kuroya, M., Ouchi, N., Kikuchi, M., Kuroya, M. Studies on the Antibiotic Substances from Actinomyces. 1st Report. On the Isolation and Classification of Antibiotic Producing Actinomyces... 32

Yamagishi, M. Uric Acid Content of Lactating Mothers' Urine and Arakawa's Reaction. Part 2. The Relation between Daily Variation of Uric Acid Content of their Urine and Arakawa's Reaction. ... 33

Kuroya, M., Ouchi, N. and **Katsuno, M.** Studies on the Antibiotic Substances from Actinomyces. 2nd Report. On the Classification of Antibiotic-producing Actinomyces by the Streak Plate Method (So-called "Primary Screening"). 50

Yosizawa, Z. Biochemical Studies on Carbohydrates. CV. Structural Study of A-specific Carbohydrate from the Mucin of Pig Stomach-mucus. First Paper.... 51

Ishida, N., Katagiri, K., Chida, R. and **Hataya, T.** A One-dimensional Diffusion Method of Assaying Streptomycin. 56

Osaki, S. and **Yosizawa, Z.** Biochemical Studies on Carbohydrates. CVI. On Seromucoid. 57

Suzuki, T. The Effect of Anoxia on the Intestinal Secretion.... 62

Osaki, S. and **Yosizawa, Z.** Biochemical Studies on Carbohydrates CVII. On Vitellomucoid. 63

Hiyama, N. Biochemical Studies on Carbohydrates CVIII. Amino Sugar in the Glycidamin making up Chondromucoid. 65

Takahashi, S. A New Device to get a Radiological Section Figure of Body. Preliminary Report. 70

Go, S. Experimental Study of Intraaxillary Vaccination of B.C.G. ... 71

Takahashi, S. Cross-section Radiography, an Improved Method of Rotatography. Preliminary Report. 80

Katsunuma, H. A Contribution to the Stadie-Wu's Method of Hemoglobinometry. 81

Motokawa, K., Hukuda, M. and **Ohinata, S.** On the Persistence of Brain Waves. 97

PAGE

Shikinami, Y. and **Kutsuzawa, T.** Über die bakterizide Wirkung von Guanidinderivaten, welche bei uns dargestellt worden sind. 96

Hiyama, N. Biochemical Studies on Carbohydrates. CIX. Amino Sugar in Osseomucoid-Glycidamin. 97

Utusi, M. Biochemical Studies on Carbohydrates. CX. Hexosamine Compounds in Lung. First Report. 101

Sasano, N. and **Kurobane, T.** Demonstration of a Neuroid Nævus (Masson). 108

Motokawa, K. Brain Waves and the Localization of Cerebral Function. 109

Motokawa, K. Energy of Brain Waves and Energetics of the Brain.... 119

Nagaoka, T. Biochemical Studies on Carbohydrates. CXI. On Snail Enzymes. Second Report : Mannosidases. 131

Nagaoka, T. Biochemical Studies on Carbohydrates. CXII. On Snail Enzymes. Third Report : Galactosidases. 137

Motokawa, K. Visual Function and the Electrical Excitability of the Retina. 145

Motokawa, K. and **Iwama, K.** The Relation between the Intensity of Light and the Electrical Excitability of the Human Retina.... ... 155

Motokawa, K. Electrophysiological Studies of Color Vision. 165

Utusi, M. Biochemical Studies on Carbohydrates. CXIII. Hexosamine Compounds in Lung. Second Report. 175

Motokawa, K. Spatial Summation of Optic Stimuli in the Human Retina as Revealed by Electrical Stimulation. 179

Kobayashi, T. Vacuum Desiccation of B.C.G. in Frozen State. 189

Motokawa, K. A Physiological Basis of Color Discrimination. 197

Nos. 3 & 4. December 25, 1949.

Motokawa, K. Physiological Evidence for the Three Components-Theory of Color Vision. 207

Utusi, M. Biochemical Studies on Carbohydrates. CXIV. Hexosamine Compounds in Lung. Third Report. Heparin as a Component of Glycoproteins. 215

Sato, A. and **Kaiho, N.** Thiamin Deficiency and Blood Sugar. Is there a Discrepancy between Human and Animal Findings ? Preliminary Report.... 218

Utusi, M. Biochemical Studies on Carbohydrates. CXV. Hexasomine Compounds in Lung. Fourth Report: Glycidamins as a Component of Nucleoproteins. 219

Sato, A. Is there Any Case with Yakriton-deficiency or Deficiency of the Detoxicating Liver Hormone ? What is the Use of Yakriton in Clinical Medicine ? Preliminary Repot. 222

Huzi, K. A New Compound Excreted in Urine and Developing Colour Reaction with *p*-Dimethylaminobenzaldehyde. First Report. 223

Kuroya, M., Ishida, N., Kobayashi, S., Konno, J. and **Chida, R.** Studies on the Antibiotic Substances from Actinomyces (3rd Report). On the Identification of the Antibiotics from Actinomyces by the Specificity of Culture Filtrates (so-called " secondary screening " of 1st group of actinomyces). 230

PAGE

Kato, K. Studies on Desiccation of B.C.G. Vaccine, especially regarding the Medium and Vacuum Grade. 231

Saito, T., Kaito, I. and **Sawada, M.** Studies on the Water Metabolism in Diabetes Mellitus. 239

Kaito, I. Liver Function in Diabetes Mellitus. 247

Kaito, I. Studies on the Coincidence of Diabetes Mellitus with Gall-bladder, Duct and Liver Diseases in Japan. 261

Shikinami, Y., Takeda, M. and **Akimoto, T.** Vi coli in Various Kinds of Disease.... 273

Satoh, T. Biochemical Studies on Carbohydrates. CXVI. Group-specific Substances in Gastric Mucosa. Third Communication: Group-specific Carbohydrates from Human Gastric Mucosa. ... 275

Kobayashi, S., Sato, J. and **Ishida, N.** Studies on the Antibiotic Substances from Actinomyces (4th Report). Isolation of Streptomycin. ... 280

Satoh, T. Biochemical Studies on Carbohydrates. CXVII. The Group-specific Carbohydrates in the Mucosa of Human Small and Large Intestines. 281

Iijima, S. Prurigo nodularis. Preliminary Report.... 284

Yamagata, S. Studies on Blood Glycogen. The 1st Report. A New Micromethod of Estimation of Blood Glycogen.... 285

Yamagata, S. and **Chida, T.** Studies on Blood Glycogen. The 2nd Report. Relation Between Blood and Liver Glycogen. 291

Yoshida, Y. Colloid Lability of Serum in Skin Diseases. 1. Serum Cobalt Reaction. 296

Oh-Uti, K. Polysaccharides and a Glycidamin in the Tissue of Gastric Cancer. 297

Tiba, H. Biochemical Studies on Carbohydrates. CXIX. Hexosamine Compounds in Human Gastric Juice. Third Communication: Non-anti-hemoisoagglutinative Carbohydrates in A and B Gastric Juice. 305

Kurobane, T. and **Sasano, N.** Demonstration of Langerhans' Cell in the Epidermis. 308

Tiba, H. Biochemical Studies on Carbohydrates. CXX. Hexosamine Compounds in Human Gastric Juice. Fourth Communication: On the O Gastric Juice and the Digestibility of the Different Group-specific Carbohydrates. 309

Hiyama, N. Biochemical Studies on Carbohydrates. CXXI. On the Direct-Ehrlich Reaction-giving Structure in Glycidamins. First Report. 319

Hiyama, N. Biochemical Studies on Carbohydrates. CXXII. The Carbohydrate of Paramucin. 327

Miyakawa, E. Studies on the Influence of the Extrinsic Nervous System on the Intestinal Action Currents. 335

Oikawa, M. Experimental Studies on the Action Currents of the Small Intestine in the Case of Acute Intestinal Obstruction and Peritonitis... 343

Aikawa, M. A Toxic Substance in Carcinomatous Ascitic Fluid. First Report.... 351

Aikawa, M. Do Cancerous Ascitic Fluids Contain Mucoitin? 355

PAGE

Ohara, S. On the Effects of Several Drugs upon the Action Currents of the Small Intestine. 359

Matsuda, K. and **Tomono, H.** Influences of the Ventricular Systole Upon the Cardiac Sinus Rhythm in Man. 366

Aikawa, M. A Group-specific Substance of Lipoid Nature in a Liver Metastasis of Gastric Cancer First Report. 367

Kato, M. and **Sato, H.** A Clinical Respiratory Recorder 378

Mita, T., Hironaka, K. and **Koike, I.** The Change in Electrical Excitability of the Human Retina Caused by a Flash of Light.... 379

Ohinata, S. Effects of Various Cations and Hydrogen Ions on the Action Current of Frog's Skin. 389

Ohinata, S. Effects of Acetylcholine, Adrenalin and other Drugs on the Action Current of Frog's Skin. 397

INDEX TO VOL. 51 OF THE TOHOKU JOURNAL OF EXPERIMENTAL MEDICINE

Subjects

Acetylcholine: on skin action current ...397
Actinomyces: Antibiotics from — ... 230, 280; Isolation of antibiotic producing — ... 32, 50
Action current: Acetylcholine, adrenaline etc. on skin — — ... 397; Various cations on skin — — ... 389; **Intestinal** — —: Drugs on — — — 359; Extrinsic nervous system on — — — ... 335; — — — in intestinal obstruction and peritonitis ... 343
Adrenaline: on skin action current ... 397
Allergy: Tuberculosis and — in childhood ... 9
Amino sugar: in glycidamin making up chondromucoid ... 65; in osseomucoid-glycidamin ... 97
Anoxia: on intestinal secretion ... 62
Antibiotics: from actinomyces ... 230, 280; Isolation of — producing actinomyces ... 32, 50
Arakawa's reaction: and blood sugar 218; and urinary uric acid ... 33
Ascites: Toxic substance in cancer —... 351
B.C.G.: Desiccation ... 231; Intraaxillary vaccination ... 71; Vaccuum desiccation ... 189
Bactericide effect: Guanidinderivatives ... 96
Brain waves: and localization of brain function ... 109; Energy of — ... 119; Persistence ... 87
Blood: — **glycogen**: Micromethod ... 285; Relation to liver glycogen ... 291
Blood sugar: and vitamin B_1 ... 218
B. tuberculosis in sputum: Concentration method ... 1
Cancer: — **ascites**: and mucoitin ... 355; Toxic substance in — — ... 351; —, **gastric**: Polysaccharides and a glycidamin in — — ... 297
Carbohydrate: A-specific — from mucin of stomach mucus ... 51
Cations: on skin action current ... 389
Chondromucoid: Amino sugar in glycidamin making up — ... 65
Coincidence of diseases: Diabetes mellitus with gall-bladder, duct and liver diseases ... 261
Coli: Vi — in various diseases ... 273
Colloid lability: of serum in skin diseases ... 296
Color: — **discrimination**: Physiological basis ... 197; — **vision**: Electrophysiology ... 165; Evidence for three components-theory of — — ... 207
Desiccation: of B. C. G. ... 231; Vacuum — of B.C.G. ... 189
Diabetes mellitus: Liver function ... 247; Water metabolism ... 239; Coincidence of — — with gallbladder, duct and liver diseases ... 261
Ehrlich's reaction: Direct- — — giving structure in glycidamins ... 319;
Ehrlich's reagent: New urinary compound reacting with — — ... 223
Electrophysiology: of color vision ... 165
Energy: of brain waves and energetics of brain ... 119
Enzymes: Snail — ... 131, 137
Excitability: Change in electrical — of human retina ... 379
Extrinsic nervous system: on intestinal action currents ... 335
Galactosidases: — ... 137
Gastric juice: Hexosamine compounds in human A and B — — ... 305
Glycidamin(s): Amino sugar in — making up chondromucoid ... 65; Amino sugar in osseomucoid- — ... 97; Direct-Ehrlich reaction giving structure in — ... 319;

— as component of nucleoproteins *219;*
Polysaccharides and a — in gastric cancer *297*
Glycogen: Vitamins upon liver — *17;*
Blood and liver — *291*
Group-specific carbohydrates: Digestibility of — - — — in O gastric juice... *309;*
— - — — from gastric mucosa *275;*
— - — — in small and large intestines *281;*
Group-specific lipoid in liver metastasis of gastric cancer *367*
Guanidinderivatives: Bactericide effect *96*
Heart: Cardiac sinus rhythm: Ventricular systole upon — — — *366*
Hemoglobinometry: Stadie-Wu's method *81*
Heparin: As component of glycoproteins *215*
Hexosamine compounds: in human A and B gastric juice *305;*
in lung *101, 175, 215, 219;*
in O gastric juice *309*
Intestinal secretion: Anoxia on — — *62*
Intestine, small: Drugs on action current of — — *359*
Langerhans' cell: in epidermis *308*
Light intensity: and electrical excitability of retina *155*
Lipoid, group-specific: in liver metastasis of gastric cancer *367*
Liver function: in diabetes mellitus ... *247*
Localization of cerebral function: and brain waves *109*
Mannosidases: — *191*
Micro-method: for blood glycogen ... *285*
Mucin: A-specific carbohydrate from — of pig-stomach mucus *51*
Mucoitin: and cancerous ascites *355*
Mucosa: Group-specific carbohydrates from gastric — and — of small and large intestines *275, 281*
Nævus, neuroid: Demonstration *108*
Nucleoproteid: Glycidamins as component of — *219*
Paramucin: Carbohydrate of — *327*
Peritonitis and intestinal obstruction: Intenstinal action currents *343*
Polysaccharides: and glycidamin in gastric cancer *297*
Prothrombin time: and vitamin B_1 ... *8*
Prurigo nodularis: Etiology *284*
Radiography: "Rotatography": Radiographical section figure in body ...*70, 80*
Respiration: Respiratory recorder ... *373*
Retina: Spatial summation in human — *179;*
Electrical excitability of —: and light intensity *155;*
and visual function *145;*
Change in — — — — *379*
Seromucoid: Analysis *57*
Skin diseases: Colloid lability of serum *296*
Spatial summation: in human retina *179*
Sputum: Concentration method of B. tuberculosis *1*
Stadie-Wu's method of hemoglobinometry: *81*
"Streak plate method": Classification of antibiotic-producing actinomyces *50*
Streptomycin: A one-dimensional diffusion method of assaying — *56;*
Isolation *280*
Systole, ventricular: Influence upon cardiac sinus rhythm *366*
Trichromatic theory: Physiological evidence *207*
Tuberculosis: and allergy in childhood *9*
Urinary compound: A new — — reacting with p-dimethylaminobenzaldehyde *223*
Vaccination: Intraaxillary — of B.C.G. *71*
Visual function: and electrical excitability of retina *145*
Vitamin(s): upon liver glycogen *17*
Vitamin B_1: and prothrombin time *8;*
— — deficiency and blood sugar *218*
Vitellomucoid: Analysis *63*
Water metabolism: in diabetes mellitus *239*
Yakriton: Working hypothesis concerning — effect *17;*
Cases with —deficiency *222*
